Summary

Small screwdriver to use bits in tight spaces

[Hobby & Makers](#) > [Tools](#)

Tags: [bit](#) [screwdriver](#) [bitholder](#)

Small screwdriver to use bits in those tight spaces.

Supports 1/4" bits (6,35mm)

It has a pocket inside to insert a magnet 9mm high and 5mm diameter.

Just add a pause to your program on the right layer. No glue needed.
