Summary

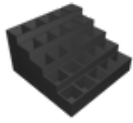

This is designed to hold 25 Vallejo Model Color/Game Color sized bottles of paint.

I designed this to hold my bottles of Vallejo Model Color paints. This way I can store them neatly on my bookshelf. I found this prints best standing straight up. I printed mine on my Creality K1 with hyper pla using the default creality settings, but can be printed on any printer that has a build area larger than the dimensions below. Supports are needed for the open bottom. I left the bottom open because it uses less filament to support it than it would to print filled in.
