### Summary

A carrier for dog waste bags with a secure lid and a handy keyring attachment. Keep it on your dog's leash or harness!

Tags: [dog](#) [dogpoopbags](#) [dogleash](#)

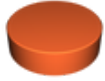

This is a handy carrier to keep a whole roll of dog poop bags on the leash with you. I've gone through several design revisions and I've been using this version with my dog for several months. It's lightweight, feels secure, and clips to the leash with a keyring. Prints great in PLA, requires no supports.

If you prefer STL, you will need to print a body and a lid. If you print from the 3MF, both models are included in one file.
