### Summary

Simple Christmas decoration with a spiral design

[Seasonal designs](#) > [Winter & Christmas & New Year's](#)

Tags: [decoration](#) [christmas](#) [ball](#) [spiral](#) [vasemode](#) [xmas](#)  
[spiralized](#)

Simple Christmas decoration.

Must be printed in vase mode (or spiralize) to be empty (and lightweight). To hang it simply remove the base layers so the ball has both ends opened. Then insert a wire loop tied with a paperclip through the bigger hole (see images).

If you like this model and you're looking for other Christmas decorations, check out the coordinated [Christmas Tree Topper](#) or the new [Christmas Cat Decoration](#)!

Merry Christmas! :)
