Summary

Handle to easily open and close the Nauticam vacuum valve I

[Sports & Outdoor](#) > [Outdoor Sports](#)

Tags: [valve](#) [vacuum](#) [diving](#) [nauticam](#) [underwatercamera](#)

A simple handle to open and close the Nauticam vacuum valve ver.1.

The release screw can sometimes be a bit hard to open after a dive so this handle makes it much easier and faster to open and close the valve.

Printed in ASA.

The file is in the recommended print orientation.
