updated 15. 1. 2024 | published 15. 1. 2024

Summary

Replaces the connector between the vacuum and the hose which likes to break

I printed this in PETG with a PrusaXL 0,4mm Nozzle, 4 Perimeters, Structural profile - worked perfectly for me. The tube can be “screwed” in, connect the clip using short screws which also prevent the tube to loosen. Designed in FreeCAD.
