## Summary

Phone adapter for SP conector and magnetic support type Ivolver.

[Hobby & Makers](#) > [Automotive](#)

Tags: [support](#) [phone](#) [spconnect](#)

With this part you can use your magnetic support type “IVOLER” with SP Connect devices. I have upload a circumferencial support (perfect if you will never disassembly it) and another with two arms to facilitate it disassembly if necessary. The part fit perfectly on the support without glue.

Printing configuration:

- PETG
- Layer Height: 0.12 mm.
- Wall line: 4
- Infill Density: 100%
- Support: Tree Slim
