Summary

10 slot Inner Lid for parametric rugged box

[Hobby & Makers](#) > [Organizers](#)

Tags: [lid](#)

I didnt have 10mm foam at hand so I designed small tray that leaves less than 1mm of space at top.

Great addition if you dont want your screws to fall out from its tray

CAUTION! Lid is for 10 slot box and not default 8!

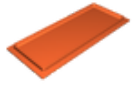

This remix is based on

Rugged Box with Modular Slots (Parametric) - Shallow height
