3D scan of Dove decoy.

STL is the best file, I removed the clip and softened the model, along with edited rough patches out.

Zip file contains colored version. Unedited straight from the scanner. It's a rough scan and would need more processing before use unless you are using it to render.

## Model files

**borb.stl**

☐ Printable

**borb.obj**

☐ Straight from scanner...

## Other files

**borb.mtl**
