## Summary

A blank headstock for you to add your own name via SVG cutout

[Art & Design](#) > [2D Plates & Logos](#)

Tags: [gibson](#) [lespaul](#) [paul](#) [les](#) [tuners](#)

This is scaled to be 1 centimeter thick. You can do a non-uniform scale on the z-axis to make it as thin as you want.

When cutting out the logo or text, remember that if you are cutting all the way through, you can't have any hanging parts, like the center of the letter "O" as an example. So, either use a stencil font, or don't cut through all the way.
