Tags: [explorer](#) [battery](#) [solar](#) [500](#) [generator](#) [jackery](#)  
[290](#)

A simple dust cover for the exposed 12V port on many portable solar generators such as the Jackery Explorer 500 and 290 models.

Use a 15.8mm x 2.4mm oring for a nice friction fit into the 12V socket.

No supports or brim is required.

Print in multi color for a bit of a pop on the logo.
