Summary

Version of the Big Einsy Case lid with honeycomb pattern

[3D Printers](#) > [Accessories](#)

I thought BF3Design's version of the Big Einsy Case lid with a honeycomb pattern was much more attractive than Boogie's original but I didn't care for the huge Prusa logo on top. So here's a simple remix that removes the logo in lieu of a smooth surface.

Printed in Prusament Orange PETG, 0.6mm nozzle, 0.3mm layer height, 15% infill.

If you like what I'm doing...

...consider **buying me a coffee**.
