Summary

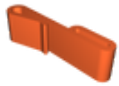

Add two velcro cable ties to this clip and enjoy cheap covert extra pistol mag carry.

Another in my series of 3d printable DIY versions of things that are heavily marked up. Add two velcro cable ties to create an Inside the waistband (IWB) or pocket carry system for securely and discreetly packing a spare pistol magazine. Carry depth and magazine size are customizable to your needs using the same printed clip. Design inspiration from [this](#) commercial product. The system can accommodate any pistol mag size from a gentlemanly .380 all the way up to a flame-throwing .45ACP Glock mag and beyond.
