If you download the model, please don't forget to leave a like. Thank you! <3

Marvel at the iconic Iron Man with this low poly geometric 3D print, featuring the superhero standing facing boldly forward. This modern design captures his powerful stance in sharp, angular lines, perfect for fans of superheroes and contemporary art.

To reduce the risk of stringing, I recommend you reduce your outer wall speed to 100mm/s, this has given me consistently clean results without the need to modify other settings.

Happy printing :)
