Summary

I Wanted a 4.5 x 7.5 box but in a quad. I designed this from scratch and copied the original model dimensions.

Copy of the 4.5 x 7.5 box in a quad instead of a triple new box is (115 x 190mm) . I have an older house and my drawers are 7.5 (190mm) inches wide. I only wanted the box in this size.
