Experience the sinister charm of Gengar with this low poly geometric 3D print. Crafted with sharp, angular lines, the design embodies the eerie and mischievous nature of this ghost-type Pokémon, creating a strikingly modern and slightly ominous portrayal, ideal for those who appreciate the darker side of the Pokémon universe and abstract art.

**To reduce the risk of stringing, I recommend you reduce your outer wall speed to 100mm/s, this has given me consistently clean results without the need to modify other settings.**
