simple containers for detergents

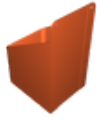

I developed 3 types of containers so that I could make different combinations.... I would have liked to hang them only with strong double-sided tape but the weight doesn't allow me to, so I added a couple of holes for the screws.

It can be printed in PLA with a minimum of 4 perimeters filling only on the basis of 30% or more....

07/02/24:

Fixed an error on the holes
