Summary

Just a simple knob for a set of drawers. Has space for M3 nut, although it may be a bit tight.

Needed a replacement drawer handle knob for an Ikea Rast. Took some measurements and poked around onshape for an hour or so, and got this. I tried to be as faithful to the original as possible, and I think I got darn close. I don't even notice it's different as it's on the bottom drawer.

Printed on an Ender 3 pro with Elegoo Black PLA+, using a .4mm nozzle and .2mm layer heights.
