A six-sided die that spins like a top. The design was inspired by @Top_Goodman's Dice Spinner. I needed a directional d6 to play Herding28, a non-combat tabletop game where you are a sheepdog trying to herd sheep into their enclosure. Instead of spinning an arrow and rolling a d6, you can do both in one roll!

More info on this game can be found in these articles: <https://www.wargamer.com/warhammer-pacifist-alternative-herding28> <https://www.wargamer.com/warhammer-without-the-war>

Rules are available for free on the NonCombatTabletop Discord server: <https://discord.gg/N4G2fhBn>

Choose one of the bottom faces to sit flat on the bed. Printed with 99% concentric infill to help with balance and weight.
