Stackable Magnetic Player boxes for the board game Near and Far.

I designed some player boxes for Near and Far to fit into the organizer I printed. I wanted them to close with magnets. I used 6 x 3 mm magnets. When gluing magnets in, make sure that the polarity is consistent and correct. I only glued 2 magnets instead of all 4, and it's strong enough.

You will need to print 4 boxes and 2 lids to fit in this organizer.

Original design and the rest of the box organizer by garbled, can be found at: <https://www.thingiverse.com/thing:3034967>
