[carouselstorage](#) [turnable](#)

The rotating cutlery holder is designed to bring order to your kitchen. Space for 24 pieces. Thanks to the innovative design with two ball bearings, you can effortlessly rotate the holder so you can find the items you need quickly and conveniently.

Simply print out both parts of the holder and assemble them together with minimal effort. The model was designed so that no supports are required when printing.

The openings for the cutlery are not suitable for all shapes. An individual adjustment may need to be made here.

For ball bearings:

1xBB 6000

1xBB 6001
