A desktop pen holder with a rock-like texture, convenient for organizing pens, highlighters, and small rulers, similar to the one in the photo.

The texture is irregular in both shapes and heights.

If you prefer the pen holder without a highlighter and without a slot for the ruler, let me know, and I'll try to accommodate your request as soon as possible.

The PLA+ was used as the material in the photos; no supports are needed, and the entire piece was printed with a Creality Ender 3. However, you can print it with any 3D printer.
