### Summary

A business card holder that also integrates space for 2 pens

[Household](#) > [Office](#)

[businesscardholders](#) [officeholder](#)

A business card holder that also integrates space for 2 pens;

Modern and elegant with reliefs and rounds that make it ideal to keep in the office or on the meeting table. The standard 85x55mm business cards lie elegantly and are easy to pull out.

I loaded different versions for different inclinations so as to adapt to tastes; Also created the version with only 1 slot for a single pen.

Loaded tilts are:

35 and 40 degrees,

I can change if necessary with different values. In that case, send me a message and I'll be happy to upload it right away.

A pen-free version has also been added if you want an even more minimal design
