Dog Whistle Keychain - 13kHz

Introducing our latest innovation in canine training – the **Dog Whistle**, meticulously designed to enhance communication between you and your furry companion. Crafted with precision and convenience in mind, this sleek and portable whistle is an essential tool for effective dog training.

Tuned to the optimal frequency of 13kHz, our dog whistle ensures a clear and distinct signal that captures your dog's attention without causing discomfort. The compact size allows you to carry it effortlessly on your keychain, providing easy access whenever you need to command or train your four-legged friend.

Whether you're working on basic obedience or fine-tuning advanced commands, this dog whistle is a versatile and reliable tool for pet owners and trainers alike. The lightweight and durable construction make it perfect for outdoor activities, walks, or training sessions, ensuring a harmonious and enjoyable bond with your canine companion.

Upgrade your training routine with the **Dog Whistle** – where precision meets portability for a harmonious connection with your beloved pet.

⚠ **+95db whistle, may cause hearing discomfort**

Print Information: Front of the whistle should face the back of the bed, select seam position to “Back”.

BENEFITS:
