Revolutionize your cable organization with our fully customizable Cable Holder! Designed with innovation in mind, this upgraded version caters to both larger and smaller diameter cables, effortlessly accommodating HDMI cables, mains leads, and more. Experience enhanced cable management with additional slots, providing the flexibility you need to keep your space tidy and cables easily accessible. Say goodbye to cable chaos and bring order to your workspace with this versatile and practical Cable Holder.

This is part of my **Hooks & Organizers** Series. You can discover all models in this **collection**.

Instructions (very fast&easy):

here is a detailed up-to-date tutorial on how to customize online:
<https://sites.google.com/view/universalmaker/openscadtutorial>

1. open: <https://openscad.cloud/openscad/>
2. upload the scad file by copying it manually into the editor
3. set any number of clips and their width!
4. Download the STL

Mounting

1. Use double sided tapee
2. or drill a hole through 2 segments

update:

added a "reduced" version for lower performance PCs
added V2 - fixed the configurator for number of models
