Summary

Pretty kitchen knife holder, could store up to 6 knives.

Tags: [kitchen](#) [holder](#) [knife](#)

Quite big print but can fit big knives.

Basic version could store knives with blades 170mm long. If you want to store larger knives you need to scale base and separators in Z axis.

You should print 6 separators and 1 base. Separators should fit tightly in the base but if they are loose, you could just use some super glue.
