updated 16. 1. 2024 | published 16. 1. 2024

Summary

A remixed version of a single chainlink so that you can connect multiple sheets.

[Learning](#) > [Engineering](#)

Tags: [fabric](#) [chainmail](#) [connector](#) [nasa](#)

Combine sheets of Nasa Chainmail without needing fiddly middle print joining. Links hold together well, especially on the FDM-optimised form. Use the base connector for combining sheets of the original model and the sturdy connector for the NASA Chainmail Hex for FDM model

This remix is based on

Nasa chainmail (4x4, 8x8, 12x16 and 32x34)

by Halling Slimta

Ideal NASA Chainmail Hex for FDM(STEP included)
