### Summary

This tool works the same as the factory tool shipped in your bullet feed kit from Frankford Arsenal

[Hobby & Makers](#) > [Tools](#)

This tool works the same as the emulator included in your Frankford Arsenal X-10 bullet feeder/collator kit to empty the bullet shuttle. My tool has a handle and makes it much easier to use than the factory tool. The tool works with all current pistol calibers offered for the system on the X-10 reloading press.

This is a machine tool, it in no way works with an actual firearm.
