Summary

Remix of Lack v2 enclosure with pocket doors to fit 4mm acrylic plates as this is easily available in Norway.

Tags: [lack](#) [lackenclosure](#) [slidingdoor](#) [lackv2](#)

Needed to fit 4mm acrylic plates as this is most available and I already had it laying in shop.

These files only contain parts in contact with acrylic plates. Rest of V2 enclosure must be downloaded from original creator.

If anything is off please send me a message and I will fix.

Remixed the original Prusa Lack V2 enclosure:
