updated 16. 1. 2024 | published 16. 1. 2024

Summary

This beard comb has a sharper angle. Less rounded.

Print with standard settings, 15% infill, 12.04 g filament used.

28m24s print time on Bambu X1C

Differences of the remix compared to the original

Sharper angle. I have a rounder head so I like a sharper beard.

Wider ruler side

Ruler disappeared on original so I changed the numbers and pushed the ruler holes all the way through.

This remix is based on

Beard shaping tool
