A storage tray for all your USBs, Micro SDs, SDs, HDDs, and SSDs.

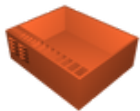

All 3 versions have the HDD/SSD tray but the number of slots for other memory types differ:

- The one I designed for my needs with adequate number of slots for USBs, Micro SDs, and SDs

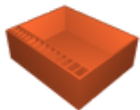

- One has all USBs and no SDs or Micro SDs (USB+)
- One has more SDs and Micro SDs but still a few USBs (SD+)

For short USBs I designed a height extender that fits in the USB slots and can be picked up using tweezers or something similar.
