Summary

This is an adapter to standard 35mm tools to the CAMLOCK connector

[Hobby & Makers](#) > [Tools](#)

Tags: [camlock](#)

This CAMLOCK adapter can be used to connect tools with standard 34-35mm ID fittings.

Adapter external diameter is conical 34 to 35mm.

To be used with the [CAMLOCK connector](#) from @PeterH.

I designed this with FreeCAD using @PeterH's description of the CAMLOCK connector in his CAMLOCK FITTINGS SOURCE FILE PDF file, which you can find in the above link.

I printed in Prusament basic grey PLA, with randomly placed seams, 0.30mm layer height. Perimeters set to 10.

Edit: this one is a bit too narrow for some tools vacuum ports. See [here for the 36mm version](#).
