This is calipers holder is a remix of Oleksii Zelivianskyi caliper holder for digital calipers.

I beveled one side, because I couldn't hook the caliper in the original because of the locking screw.

I added the same Hock as Oleksii Zelivianskyi the IKEA SKADIS Collection by CSD_Salzburg.

I share the Fusion360 file for easy remix.

Printed in PLA

Infill: 15%

Walls: 3

Nozzle: 0.2
