## Summary

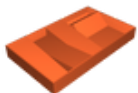

Let it slide! 500x300x60mm cutlery organizer slide tray for Ikea drawer. Its modular so you can make it even more funky

Tags: [accessory](#) [modules](#) [cutleryorganizer](#)

STL file contains whole tray (500x300x60mm) dedicated to drawer such as Ikea one. 3mf file contains modules that can find more uses. You can print all of them to assemble tray using smaller workspace than original whole tray. Design allows to print modules without supports and can be made even with 15% filling and still be durable. I would recommend PETG or PLA filament. You can also print only one or two, or multiply those which are at center if its suitable for your need.
