Summary

Cube computer housing

[Gadgets](#) > [Computers](#)

Tags: [housing](#)

Some time ago, inspired by iconic designs, I draw a cube shaped mini ITX housing.

As usual, time was fleeting and I sold the intended motherboard before finishing the project.

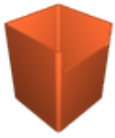

Maybe it can be the base of your project.

The inner part is used twice, screwed together with 4 of the parts named "grunz".

The parts named blech are intended to fit inside the inner rectangular parts.

Greetings
