### Summary

A body for the 1/24 Snowcat

[Hobby & Makers](#) > [RC & Robotics](#)

Tags: [snow](#) [tracked](#) [plow](#) [bodykit](#)

I designed this body for [Froy192's RC Snowcat](#). It is designed to snap over the tongues on the sides of the original chassis. You will need to cut a slot for the blade linkage to suit your particular link type.

You can print the window plates and insert them or just leave the plates off. Future versions of this body will have some simple details and places to mount LED lights

Version 2.0 with more detail is posted here: <https://www.printables.com/model/737958-version-20-124-snowcat-body-now-with-more-detail>

Version 3.0 RACE is found here: <https://cults3d.com/:1761622>
