Summary

this is a clip for a begleri it has a simple locking mechanism. the clip itself will secure to your pocket very tightly.

this clip should be printed on its side as flat as you can get it to lay. the locking peg should be printed straight up and down with a brim. print them both 100% infill and you wont have to worry about any breaks. the clip that goes on your pocket is very tight its not going anywhere the teeth have a 1.6mm gap. so yeah its gonna grab on and stay on.
