## Summary

Airsoft ASG P-09 Backstrap

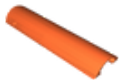

[Costumes & Accessories](#) > [Props](#)

I print this vertically, with the flat side on the print bed. I would recommend printing just the section with the hole first, to see if you need to adjust your X-Y hole compensation for the pin hole.

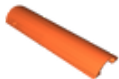

100% infill, PLA+, at least 3mm brim (I use 5mm brim). I recommend using adaptive layer height on the section with the pin hole.
