Summary

120mm Fan Duct Covers to direct airflow

[3D Printers](#) > [Accessories](#)

Tags: [fan](#) [duct](#) [120mm](#)

I created two 120mm fan ducts one with a 90 degree flush back and the other with an angled back to fit into places that may have a small obstruction.

can me used to direct airflow to where its needed or through a narrow slot or can be used to suck air out.

There meant to be mounted using fan screws this is why the hole are not open on the other side.
