## Summary

This piece replaces the ball joint connector inside the HG Z'Gok arm.

Tags: [replacementpart](#) [bandai](#) [gunpla](#) [hg](#) [zgok](#)

The shoulder ball joint connector on my HG 1/144 Chars Z'GOK cracked in half and no longer held the arm in place

This part is used multiple times to articulate the arm.

The Settings I used are as follows:

- Slicer: Cura
- Resolution: Super Fine (.12)
- Wall count: 4
- Supports: yes
- Adhesion: brim

This is best printed Vertically with ball joint at the top because the ball came out the roundest but YMMV

I hope this helps :)
