Summary

This bracket slides onto a shelf and has arms which can hold swords by their crossguards.

[Household](#) > [Other House Equipment](#)

This bracket slides onto the front edge of a shelf and has arms which can hold swords by their crossguards. The shelf it's designed for is fairly thick (20mm/0.8in). Make sure to print two of the "bracket" objects and one "shelf grabber." Print everything upside down with supports turned on for the grabber.
