[keyboardstand](#) [splitkeyboard](#) [nyquist](#) [bfo9000](#)

Made it to fit my BFO-9000 and Nyquist from Keebio. There is also a small space in the center uprights for your TRRS or USB-C interconnect cable to be stored neatly. Should also let you show it off a little bit. If there are any requests for different features and changes please shoot me a message or leave a comment.
