### SAPPHIRE | Knife Rack

Introducing our SAPPHIRE large-capacity knife block (10 knife slots), a rounder version of our **OBSIDIAN Knife Block** designed to ensure your knives stay dry and are stored safely within arm's reach.

There are 5 rows of 2 slots each. **Top row:** (W40mm) large openings for kitchen scissors, or knife sharpeners **2nd row left slit:** (W80mm) for butcher knife or Chinese chopping knife **2nd row right slit:** (W55mm) for chef knife **3rd row:** (W60mm x2) for regular mid-size kitchen knives or chef knife **4th row:** (W50mm x2) for regular mid-size kitchen **Bottom row:** (W40mm x2) for boning knives or paring knives

Make your kitchen shine with a touch of elegance and a whole lot of practicality!

**DIMENSIONS** | W 180mm x L 215mm x H 250 mm

**3D PRINT SETTINGS Resolution:** 0.2mm / layer or less

**Wall lines count:** 2

**Build adhesion type:** Not need for a brim, unless you have adhesion issues. If so then use a 6~8mm brim.

**Infill:** 15~25% gyroid

**Supports:** None (if printed on the side)

The knife block was designed so it could be printed **100% without supports** if, and only if, it is **printed on the right side or left side face** (see pictures).
