updated 29. 1. 2024 | published 29. 1. 2024

Summary

Replacement box for the Staedtler Mars Basic 558

[Household](#) > [Office](#)

Replacement box for the original transparent one which tends to break quite easily.

I've removed the name from the model.

Hinge is printed in place with a 0.15mm clearance.

Printed in PLA, standard resolution of 0.20mm works fine with a 15% gyroid infill.
