updated 17. 2. 2024 | published 17. 2. 2024

Summary

Another LED lamp. Thank you for all the support.

All you need is glue, an LED strip like this [USB LED strip Maxxter | Action.com](#) and the choice of filaments is up to you, but I recommend printing the front cover in a light color. As with the previous model.

If you like my model, I will add more tags. O:)
