Beer coaster with the Lamborghini logo. It is intended for dual color printing by switching filament once. The provided gcode for Prusa Mk3 is already setup for this.

The logo SVG comes from <https://brandlogos.net/brand-logos/auto-logos> that allows only non commercial use and the logo itself remains the property of Lamborghini.

The pictures show it with a large Orval glass. The border is high enough that the thin logo is still stable for the glass.
