Yet another pencil holder, this time in a modern and minimalist design. You can mix the color and create your own design.

The top part is design to be printed using a 0.6mm nozzle (0.4mm should be fine) in vase mode. You can choose between the divided or simple version.

Recommended settings

- Material : PLA / PETG
- Layer height : 0.2 - 0.4 mm

- You have 2 options for the top part
 - Option 1 : Vase mode (recommended)
 - Option 2 : 0% infill, 5 layer on the bottom and 0 layer on the top
