Miniature Bases Wrecked Fan-2 Pattern

In three different sizes:

- 25mm
- 32mm
- 40mm

No matter the wargame you play, this is what you need. Print at the standard settings of 20mm Quality or go deeper at 15mm Quality. Either way, it will look great for the superb miniature you invest your time and money into.

The aliens are coming, and there is nothing you can do to stop them, except fight!

Shelter yourself! Deliver your cargo! Get back in the fight! Designed on Tinkercad.← Don't let this !#\$@*# win!

No assembly required

Clean your build surface with dishwashing soap! Avoid lifting and warped prints! Print as many as you need! Rinse and repeat!

Don't let them win! Take what's theirs and make it your own!

My name is Robert Day, and I write novels. Science Fiction, Noir, and more.

I'm a freak for building electronics, 3d printing (love Prusa printers), designing awesome 3D models based on my novels; then giving them away. Linux and open source freak with a cigar in my hand and a glass of tequila in the evening. Sometimes armchair philosopher, full time coffee and cigar aficionado, I enjoy a sweet life with my beloved wife Manya in Texas.
