Beautiful Voronoi Elephant with a hole in the bottom to put an electric tea light in. Perfect as a decoration or centerpiece. Would look good in gray, white, or another neutral color.

Default settings are fine

It shouldn't need supports or a brim, but you might want to enable the brim if you are worried about bed adhesion.

*The hole in the bottom is 1.55 inches in diameter (about 39 mm)- If your electric tea light is a slightly bigger size you could easily scale it up a little, but it should work fine as it is.
