Summary

By request here a similar design for the LRS-450 Series with 160mm hole spacing.

[Toys & Games](#) > [Other Toys & Games](#)

Tags: [meanwell](#) [pinball](#) [vpin](#)

Mounting bracket LEFT and RIGHT for two Meanwell LRS-450 Series Power Supplies.

Use M5 Bolts, Flat and Lock Washers.

Print flat with large section on bed.

I also design a similar kit for LRS-350 series as well as one for power supplies with dissimilar width (LRS200 or 350 at the bottom, LRS-600 on top). Check my other models ;-)

Native FreeCAD Files provided in case you want to expand / improve the design.
